Famine.—In 1896-97 some relief measures were necessary owing to a partial crop failure due to an insufficient rainfall. The maximum daily average number relieved, however, was only 2,139 in October 1896. The works remained open for fourteen months. Two works of metal-breaking were opened in September 1897 for the Alibág-Campoli and Dharamtar-Malád roads. The total amount expended on these works amounted to Rs. 2,732. Rs. 55,120 were advanced under the Land Improvement Loans Act and Rs. 16,114 under the Agriculturists' Loans Act. The total expenditure incurred on famine relief amounted to Rs. 11,639, of which Rs. 3,152 were advanced from Local Funds.

Plague.—Plague established itself in the district in an indigenous form in the beginning of February 1897, when Panvel and Uran were attacked. It then spread throughout the district. The infection was due to cases imported from Bombay. The total mortality

on account of plague up to the end of 1910-11 was 10,005 or 1·6 per cent. of the total population :—

Famine.—In 1899-1900 the crops in several villages failed on account of the scanty rainfall. The grain in stock in the State was insufficient to meet local requirements. Prices rose and distress followed among the poorest classes. Works were undertaken to give employment to those affected. The total amount expended on these works was Rs. 85,862 or nearly Rs. 14,500 above the ordinary State expenditure. Gratuitous relief to the extent of Rs. 2,000 was given to the non-working children, invalids, &c. Remission of land revenue to the amount of Rs. 36,750 was granted and Tagávi was advanced to the extent of Rs. 7,000. Cheap grain shops were also opened. 703 persons out of those in distress in Jáfarábád were brought into the State for

employments and about 185,940 lbs. of grass were sent to Jáfarábád for the use of the cattle there. Relief measures were continued till the harvest in 1900-01. The total expenditure in the year 1900-01 amounted to Rs. 24,172, out of which Rs. 1,200 were given to non-working children, invalids, etc. The average total number of persons on relief was 931, of whom 641 belonged to Jáfarábád in Káthiáwár.

Plague.—After the cholera, which carried off over 500 persons between the months of April and August 1896, three cases of bubonic plague were recorded in December of the same year. Plague assumed epidemic form in April 1897, and has caused over 2,000 deaths since :—
